MINERS ARE LOYAL

Officers of United Mine Workers Are Unanimously Indorsed.

THE CHARGES REFUTED

Special Committee Appointed to Investigate Miss Meredith's Complaint Exonerate Officials.

By a Rising Vote the Representatives of 300,000 Toilers Then Ratify the Report.

Indianapolis, Jan. 24.—The special committee appointed by the national convention of the United Mine Workers of America to investigate charges against President John Mitchell and Secretary-Treasurer Wilson, made by Miss Mollie Meredith, an ex-employee of the United Mine Workers' headquarters, in this city, has reported to the convention, completely clearing the two officers and holding the charges to be without foundation.

The charges were, in substance, that Mitchell and Wilson had misrepresented to the miners' convention in this city a year ago, the extent of the financial errors of ex-Secretary-Treasurer W. C. Pearce, and by statements made in a secret circular had misled the miners' organization at large by protecting Pearce and withholding the facts from the members of the organization.

The full report of the investigating committee follows: "We find there was no foundation in fact for the charges preferred by Miss Meredith, and beg leave to submit the following resolution:

"Whereas, One Miss Mollie Meredith has issued circular letters containing statements and making allegations derogatory to the personal and official honor of the president, the secretary and other officers of the United Mine Workers of America; and

"Whereas, We believe that such statements, coming from any source whatever are liable to irreparably damage our organization, and should be and are hereby condemned; if any person or persons feel or know that officers or members of the United Mine Workers of America are derelict in their duty, charges must be preferred in the proper manner and have the guilty parties properly punished; and,

"Whereas, Said statements were intended to and calculated to injure the president, the secretary and other officers of the United Mine Workers of America; and,

"Whereas, We believe and know that the national officers of our organization did all that honorable men should do to protect our organization and its funds at the time Mr. Pearce was removed from office; and,

"Resolved, That this convention by rising vote indorse in every particular the action of its officers in the Pearce matter."

At the conclusion of the reading of the above report Acting President Van Horn called on the convention to vote on the report, and the convention seemed to rise as a body in favor of the report. When the call for all those who declined to concur in the report to stand was made, not one man arose and the acting president declared the report unanimously adopted. President Mitchell and Secretary Wilson were then called upon and each responded briefly and feelingly, expressing their thanks to the miners for this unanimous declaration of confidence in their officers. The time of the convention today is being taken up in hearing reports of various committees.

LOW'S ATTITUDE

New York's Mayor Gives Opinion of Excise Laws.

New York, Jan. 24.—Mayor Low has made public his reply to a letter recently addressed to him by the Society for the Prevention of Crime. He expressed his attitude on the excise question as follows: "To sum up, the attitude of this administration toward the excise law can be clearly defined. It will continue to enforce the excise law as one of the general body of laws, which it is called upon to enforce in the best manner practicable with the means at its disposal, but it will not concentrate the entire police force on this one law and let other laws go by the board. It will also do everything it can to break up the bribery and corruption of which the excise law has been so long the fruitful parent."

IN CONGRESS

Pay of Rural Route Carriers Increased to \$600 a Year.

Washington, Jan. 24.—An effort was made in the senate yesterday by Mr. Mason of Illinois to obtain consideration for a joint resolution which he introduced, extending the thanks of congress to Rear-Admiral Winfield S. Schley "for his brave and able conduct while in command of the American fleet at the victorious battle of Santiago." The effort, however, was not successful.

Mr. Mason's resolution in addition to the thanks of congress provided that Admiral Schley should be presented a sword; that bronze medals commemorative of the battle of Santiago should be distributed among the officers and men "for their command of Schley during said battle," and that \$10,000 be appropriated to meet the expenses of the resolution. On motion of Mr. Hale the resolution was referred to the committee on naval affairs.

The consideration of the urgency deficiency bill, which has been under debate in the house since Monday, was completed yesterday, but owing to the lateness of the hour passage of the bill was postponed until today. A successful effort was made to increase the pay of rural delivery carriers from \$500 to \$600 per annum. Mr. Hill, Connecticut, made the motion to increase the appropriation for this purpose. It was resisted by Mr. Cannon and Mr. Loud, chairman of the post-office committee, on the ground that the method was irregular, but the members with rural constituencies supported it and it was adopted.

A PITIFUL STORY

In Defense Mrs. Richardson Explains Her Nocturnal Wanderings.

Plattsburg, Mo., Jan. 24.—Mrs. Adelle B. Richardson's defense was begun yesterday in her trial here for the murder of her husband, Frank W. Richardson, at Savannah. It was shown that Mrs. Richardson's trip about the streets of Savannah after night in company with Stewart Fife, which fact the state brought out Wednesday, was to find her husband, Johnnie Richardson, 14 years old, the first witness called by the defense, told of going with his mother at 11:30 o'clock at night to find his father, and how after Fife had located him, intoxicated in a hotel, Mrs. Richardson had gone there and taken him home. This was corroborated by Mrs. Gertrude Grant, a sister of the dead man, and by the hotel proprietor. Others told of Mrs. Richardson's good character. They were Rev. John Atwell, rector of the church where Mrs. Richardson attended and who had lived at the Richardson home; Rev. A. R. Hunt and Peter Christiansen, the latter a member of the grand jury that indicted Mrs. Richardson. Bruce Stanton testified that he had made tracks in the snow about the Richardson house on the night of the murder while examining the premises.

The election of officers held Wednesday was reconsidered and a new set of officials elected. Mayor Charles A. Bookwalter of Indianapolis is the president of the congress for the ensuing year. The convention and tournament of 1903 also goes to Indianapolis. The clause in the constitution regarding the admission of proxy votes at the annual convention which caused all the friction was eliminated and a substitute providing that no delegate shall have more than one vote, was adopted unanimously.

WEAKENS AT LAST

Stiff Necked Chinese Emperor Catches a Glimpse of a Larger World.

OLD RESERVE BROKEN

The Barriers Erected By the Manch Dynasty Seem Now to Have Been Broken Forever.

Kwang Hsu For the First Receives Ministers As Representatives of Equal Sovereigns.

Peking, Jan. 24.—The ministers of the foreign powers here have attained the goal which has been their aim since intercourse between China and the powers began. They have been received as representatives of sovereigns equal in rank to the Chinese emperor.

The audiences yesterday between the emperor and the ministers were held in the innermost large hall of the forbidden city. The emperor sat upon a dais behind a table. There were four princes at the back of his chair and a dozen officials at each side. The dowager empress was concealed by a screen, according to the stories of the attendants, and remained invisible. The audience chamber was furnished orately, in contrast to the dingy rooms which served for these audiences under the old regime. The secretaries translated the addresses of the ministers, copies of which were handed to the emperor. The replies were delivered by Prince Ching. The emperor was silent throughout the audiences and remained stolid and impassive.

Formerly the emperor replied to the ministers in Manch and the prince interpreted what he said. Yesterday he appeared as an automaton, and the secretaries of the foreign ministers who were present report that he looked weaker, less intellectual and more childish than prior to the siege of the legations.

The ministers of the foreign powers entered the forbidden city at the main gate, leaving their military escorts outside. At the second gate they entered yellow chairs like those furnished for the princes and secretaries. They walked through the inner courts of the forbidden city and their cortege retired from the city by the east gate.

AN URGENT MOVEMENT

Cuba Insists Upon Reciprocal Relations With Uncle Sam.

Havana, Jan. 24.—Yesterday was a holiday in Havana. A large meeting in the interest of reciprocity was held in the Tacon Theater at which Senores Mentoro, Zayas and Dolz were the speakers. After the meeting a procession was formed which marched to the palace of the governor general. Here a commission waited upon Governor General Wood and presented resolutions to the effect that the people of Cuba of all classes, Cuban economic societies, political parties and municipal delegations now threatening the island rendered useless the efforts of the United States and Cuba to establish a stable government and reconstruct the country. These resolutions also suggested that the Cuban commissioner now in Washington be recognized as representative of the entire island and said that it was a duty which the United States owed Cuba to establish relations of reciprocity with that island.

The American Club, which participated in this manifestation, sent cablegrams to President Roosevelt, the speaker of the house and the president of the Merchants' Union of New York urging the establishment of reciprocity.

READY TO REPORT

Bill Against Anarchists Soon to Be Submitted.

Washington, Jan. 24.—The details of a bill directed against anarchy and anarchists was practically determined upon yesterday by the special committee of members of the house judiciary committee, appointed to consider this subject. The language of some of the provisions is yet to be settled, but all of the essential features of the forthcoming measure are determined upon. The measure will provide the death penalty for an attempt to kill or assault the president or anyone in line of succession for the presidency. An accessory before the fact is to be treated as a principal and an accessory after the fact is punished in a less degree than a principal. Any person who counsels, advises or advocates the assaulting or killing of any officer of the United States shall be fined or imprisoned. No alien who advocates an overthrow of organized government or who is affiliated with an organization holding such views is to be admitted to this country. Provision is also made for the punishment of those conspiring in this country against a foreign ruler. The special committee probably will report to the judiciary committee within the next few days, and a report to the house is expected soon thereafter.

The Howard Trial.

Frankfort, Ky., Jan. 24.—Some strong testimony has been introduced to controvert the alibi set up by the defense in the trial of James Howard. The proprietor of the Board of Trade hotel and numerous other witnesses testified that Howard was not in the hotel at the time Goebel was shot and that neither of his alibi witnesses, Robertson or Poore, was there. Howard's story as to his whereabouts on the day of the shooting was also contradicted on several points. The attempt of the defense to fasten the shooting on Henry Youtsey or W. R. Johnson was given a severe blow by several witnesses testifying that Dr. Johnson was at his home in Jackson county on the day of the shooting and for some days previous thereto. The case may drag over into next week.

Hann's Men Seen Since.

Lexington, Ky., Jan. 24.—John Gentry, a farmer, who was shot by Alfred Fuller, a negro near this city a few days ago, died at a hospital here yesterday. A posse of farmers pursued Fuller into an adjoining county and put a house in which he took refuge under guard, awaiting reinforcements. Fuller jumped from a second-story window and has not since been apprehended. The shooting was provoked by Gentry reproving Fuller for his ferociousness in a crossroads store.

He Wants No Fireworks.

Berlin, Jan. 24.—Emperor William has expressed a wish that the inhabitants of Berlin should not illuminate the city on his birthday, Jan. 27, but devote the money which might thus be expended to helping the unemployed and the needy.

Strong evidence sustains the popular verdict that Ely's Cream Balm is worth its weight in gold. Trial size 10 cents. Full size 50 cents. Sold by druggists and mailed by Ely Brothers, 56 Warren St., New York.

Proberta, Cal.
Messrs. ELY BROS.:—I have been afflicted with catarrh for twenty years. It made me so weak I thought I had consumption. I got one bottle of Ely's Cream Balm and in three days the discharge stopped. It is the best medicine I have used for catarrh.

Very truly, FRANK E. KINDLESPERKE
Rev. J. Ross Stevenson, brother of the former pastor of the Presbyterian church here, has been called to the pastorate of the Fifth Avenue Presbyterian church of New York City. He is at present the professor of ecclesiastical history in McCormick seminary at Chicago. He visited here a few times during his brother's pastorate.

It is an odd thing that there is today in the Virginia code a provision allowing a husband to whip his wife, provided he does not employ a whip or "sapling" larger than his little finger.

Mrs. C. J. Remy, of Columbus, came down yesterday evening to visit the family of her son, E. A. Remy.

Richard Brown continues to improve slowly.

Miss Maria Smith went to Franklin this morning to visit her mother.

B. F. Trimpe and sister came here today from Jefferson county to visit friends.

Mrs. M. F. Bottorff, of Longview, received a telegram from Bedford stating her mother, Mrs. M. J. Whitte, was sinking rapidly. She left for there at noon today.

Miss Myrtle Whitlatch returned from Seymour last evening, after spending two or three days with friends.—Columbus Times.

The Washington Strike.

The B. & O. S-W. strike at Washington is assuming more serious proportions. Both the strikers and the officers are preparing for a long hard fight. Stakes have been driven around the shops to mark a dead line in case trouble arises.

Yesterday two car loads of imported men were in the yards, one from St. Louis and the other from Cincinnati. The men all went to a special car near the round house in which they found breakfast already prepared. They ate breakfast and were then assigned to work around the yards. Some of these refused to work. Thirty-seven were from St. Louis and of this number only nine it is claimed, went to work. About thirty were from Cincinnati and almost all went to work.

The Business Men's Association, of Washington, is endeavoring to adjust the difficulty.

The real contest, the strikers claim, is an effort to completely unionize the shops. Ever since last spring, when several hundred of the laborers and helpers joined the American Federation of Labor, there has been an effort on their part to secure for the organization recognition from the railroad officials. Last October, when the men struck for higher wages and were defeated, they returned to work, they say, only on condition that their union was to be recognized and that all disputes were to be settled through that medium. This is denied by the railroad officials, who say that no such agreement was ever made or can be produced. The firm stand taken by the company that it will not reinstate the discharged men because some are needed, and the determination of the strikers to make unionism absolute, seem to bear out the prediction of State President Perkins of the A. F. of L., that the strike will be long and costly.

CENTRE TABLE FACTORY.

A Prosperous Industry That is Being Developed in Seymour;

While all of us have been anxious about the location of outside factories in Seymour, an industry has sprung up that bids fair to grow to worthy proportions and become one of Seymour's substantial factories. Last fall A. F. Wieneke purchased the most improved machinery for the manufacture of centre tables and jardiniere stands and installed it in the old canning factory building. A visit to his factory yesterday found Mr. Wieneke and his men busily at work getting out orders. He has the largest and best planing machine in Seymour, and after the tops of his tables are glued together they are run through this planer thus insuring an absolutely smooth top with no trace of the joints. Mr. Wieneke has a device of his own for fastening the legs of the tables to the top, so that they can readily be knocked down for shipment. He has no trouble in disposing of all the goods he can make, and before the holidays he had to turn down quite a lot of orders because he was unable to get the goods out. Most of the goods are sold in Cincinnati, Indianapolis and Louisville. The quality is first class as the steadily incoming orders testify. While this is not a large factory at the present time it is in a fair way to become one that will give employment and support to several families in a reasonable length of time.

A Deep Mystery.

It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells when thousands have proved that Electric Bitters will quickly cure such trouble. "I suffered for years with Kidney trouble," writes Mrs. Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my household work." It overcomes Constipation, improves Appetite, gives perfect health. Only 50c at W. F. Peter's Drug Store.

Two Old Parchments.

Will H. Noelker has in his possession two government deeds, printed on sheep-skin. One is signed by Franklin Pierce, President, dated April 13, 1853 and grants to Gerhard Noelker forty acres in section 36, township 5 north range 4 east, located about three miles east of south of Brownstown. The other document is signed by James K. Polk, President, dated March 10, 1848, and grants 100 acres in section 8, township 4 north, range 3 west, located in Martin county.

Both documents are well preserved and in excellent condition.

Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure constipation and sick headache. Only 25c at W. F. Peter's drug store.

The Southern Indiana has purchased property in Sullivan, and before the season is over will be running trains into that city. Next year another branch will be built to the mines in that locality, and the Southern will then have a sort of a belt road, that takes in all the important mines. The Sullivan branch will start at Elora. The details of the building of the road to Sullivan have not been made public, and little is known of the proposed line, but the right-of-way has all been obtained, and active work will begin in a short time. The company will spend a great deal of money in Sullivan for buildings and terminals.—Bedford Mail.

BREITFIELD—Gottlieb Breitfield, Jr., aged 18, died from blood poisoning, caused from a carbuncle. He was held in high esteem by all who knew him. Death has taken away from us one who was just blooming into manhood. Funeral services were preached by Rev. E. C. Kuehn and remains laid to rest in the cemetery here Wednesday.

The report of the finance committee showed that they had found the books of the city clerk and treasurer correct. City Attorney Lewis called attention to Judge Baker's recent decision in the water works case pending in the Federal court. He said that Judge Baker's decision did not go into the merits of the case, but merely decided that the city would have to pay the hydrant rentals.

Two resolutions were introduced by Eldridge asking for arc street lights at the corner of Third and Chestnut streets and at the corner of Branch and Central avenue.

A request was read by Eldridge from Joseph Ackerman for permission to use his lot in Block B of Peter's addition for erecting a factory to manufacture laths and to pile thereon such a quantity of timber as would be needed in his business. There was quite a discussion among the members, some holding that the city would be liable for damages to resident property holders by granting the privilege. Others contended that every possible encouragement should be offered to the proposed factory, believing that no good citizen would object because lumber was piled on a lot near him. After

listening to the legal side of the question from the city attorney, the council decided to visit the site today and see for themselves what should be done.

Joseph Burkart reported that he had examined many vaults and found most of them in sanitary condition. He mentioned several which he thought should receive attention at once.

After some miscellaneous business council adjourned at 8:25.

Taking Stock.

Electric railway promoters are again in Nashville, Brown county, and are pushing the project of connecting Nashville and Indianapolis by electricity. Stock in the proposed road is being sold in shares of \$100 each. The conditions are that one-third is to be paid when the ties are on the road bed, one-third when the overhead work is completed, and the balance when Indianapolis and Nashville are connected by the road. In Morgan-town \$22,000 worth of shares have been sold, \$3,000 at Nashville, with Georgetown yet to hear from. We are informed that there is much enthusiasm for the road all along the line, and that at Nashville there is scarcely any opposition to it.

As a Food For the Skin.

To Make it Smooth, Healthy and Beautiful, Dr. Chase's Ointment is Hailed by Thousands of Fair Women.

Every woman, no matter how beautiful her skin, finds need at times of some preparation to overcome the redness and roughness, and to cure the pimples, blackheads and skin irritations.

Powders may cover up the disfiguring eruptions, but can never cure them, and are positively injurious because they clog up the pores of the skin.

Dr. Chase's Ointment is a food for the skin. It is readily absorbed, and thoroughly cures each and every skin disease, making the skin smooth, soft and clear.

No woman's toilet is complete without Dr. Chase's Ointment, for besides being the most perfect skin beautifier obtainable it can be used in a score of different ways. It absolutely cures eczema, salt rheum and the itching to which women are especially subject. The ointment does not cause pain when applied, but soothes the sore or inflamed surface. It immediately stops itching of the skin when applied.

When the feet are sore and chafed with walking an application of Dr. Chase's Ointment takes out the smarting and allays the inflammation in a surprisingly short time. Then for burns, scalds and every sort of chafing, irritation or eruption of the skin Dr. Chase's Ointment affords a safe and certain cure. It has come to be indispensable in scores of thousands of homes in the United States. It does not cause pain when applied; so cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. WEATHER SIGNALS.

What They Mean as Sounded by the Blish Whistle.

At 10 o'clock each morning the Blish Milling Company's whistle sounds the weather forecast for the succeeding twenty-four hours as furnished by the government weather bureau.

After the warning blast of the whistle which is sounded for twenty seconds, the signal blasts proper are sounded consisting of long blasts of six seconds duration and short blasts of two seconds duration in various combinations.

The long blasts indicate the general condition of the weather, whether fair or rainy, while the short blasts indicate temperature, higher or lower. Where no short blasts are blown stationary temperature is indicated. The following list includes all the combinations which can be made under the code used:

— Fair weather, stationary temperature.
— Rain or snow, stationary temperature.
— Fair weather, lower temperature.
— Fair weather, higher temperature.
— Rain or snow, lower temperature.
— Rain or snow, higher temperature.
— Local rains, higher temperature.
— Cold wave.
— With the whistle it is impossible to give everything contained in the weather forecast telegrams, but these will appear each evening on the third page of the REPUBLICAN and our readers can verify their interpretation of the morning whistle signal.

—Just received a car load. H. F. White. j25d

If you want the best thing on earth to relieve pains of any nature go to Theo Pellens and get a 50-cent bottle of Liquid Electricity. He is the sole agent for it in Seymour. f15d

The novel of the month in Lippincott's for February is by the fertile and delightful John Strange Winter, who never grows dull and never deceives. "The Standings," her latest tale, is about a poor painter (in all senses) and his poorer family of girls, one of whom marries another painter who really loves her sister. Anyone who has ever read a John Strange Winter tale will know what that inventive pen can make out of such a plot. It's rapid, romantic, and real all through.

Liquid Electricity is the best all-around medicine for both external and internal use in the market as a great many Seymour people will testify. It is now sold by Theo Pellens, 14 N. Chestnut street. Call and get a bottle of it at once. f15d.

It is stated that in 1902 all railroads will cut down fence and billboard advertising and expend the amount saved in taking more space in daily papers. Advertising is becoming a sort of exact science of the railroads, and the cry for economy in railroading has reached the advertising department. It is proposed, says a railroad man, that more care be taken in selecting advertising mediums. He says all lines in America are giving that department more attention than ever before.—Exchange.

New Albany papers are urging the matter of building an electric road from that place to West Baden and French Lick. With these two big hostilities in operation and entertaining hundreds of people every day, with new arrivals constantly, the facilities for reaching the springs must be improved, but the outlet should be an electric road built to Seymour connecting with our excellent system of railroads.

The Last of Poor Lo

Civilization is having its effect upon the Indian papoose as well as upon the warrior and medicine man, says the Delineator for February. In a few years more there will be no more little full-blood babies, so fast is the extinction of the red race being accomplished. And when the red skin children are no more, the West will note the absence of its most stoical little Americans, the most picturesque of all babies. In a well illustrated article on the subject W. R. Draper discusses the passing of the Indians, of which the present generation of full-blood babies will be the last.

Notice to Taxpayers.

Notice is hereby given to the taxpayers of the City of Seymour that the tax duplicate for city taxes for the year 1901 is now in my hands, and that I am ready to receive taxes thereon. The rate of taxation is as follows:

The general fund, including library fund, \$1.25 on each \$100 valuation of taxable property and 50 cents on each taxable poll.

Special fund 15 cents on each \$100 valuation of taxable property.

SPECIAL NOTICE.

The first installment of taxes must be paid on or before the first Monday in May, otherwise the whole tax will be delinquent and subject to penalties. Particular attention is called to the fact that the spring payment having been extended to May 1st, gives the treasurer less time to hold the duplicate, and it will be to the interest of the tax-payers to be as prompt as possible in paying the same.

The second installment must be paid on or before the first Monday in November following.

City orders cannot be paid to any person owing delinquent taxes and all persons are hereby warned against purchasing such orders.

The annual sale of delinquent lands and lots will take place on the second Monday in February, 1902, at 10 o'clock a. m.
